

Water transport

By Water

All towns near the coast have boats that will take you to the nearby islands. For a certain price you can charter a boat and go on your own adventure. Whether you want to snorkel, dive or go fishing.

When travelling to the Northern Cayes there are two water taxi terminals in Belize city. We recommend Triple J water taxis. Boats leave every hour to San Pedro and Caye Caulker (from 9am) .

If you are travelling to Puerto Barrios (Guatemala) from Punta Gorda. Requina's water taxis offer a regular reliable service

Contact reception for a personal recommendation when looking for your desired water adventure.
