tropical rainforest

Tour
Description

The Belize

Zoo is situated within a 45 minute drive of HammockBridge. This Zoo is the home of indigenous animals and birds that are living at the Zoo in their natural setting. On the way back from your visit to the amazing wildlife and exotic birds at the Belize Zoo, we stop at one of the oldest reserves in Belize, Guanacaste Park.

In this park

huge Orchid-clad trees dominate several miles of trails along the riverbank, providing shelter to an enormous variety of birds. All of this and more make Guanacaste Park the perfect place to enjoy a good swim and to relax. If time permits it there is also a possibility for you to take a tour around the Capital City of Belize, Belmopan, also know as the Garden City. The tour around Belmopan will be at additional cost.

Price: \$70.00 US (includes transportation, fees and lunch)
